large stream through a narrow bottle neck.

The German version of the battle of Marne is yet to be heard. The German official wireless is silent regarding the operations of the past week in that theater. It records a local success by the army of the crown prince, which, it reports, took a fortified position to the southwest of Verdun and the beginning of an attack on the forts to the south of Verdun with heavy artillery. No date is given and the operations may have occurred at an earlier stage of the battle.

The position of the troops, as stated in the French reports, is that the German right army is retreating beyond the River Vesle, which runs between Rheims and Soissons, that the German forces in the center, which had penetrated farthest south, are falling back north of Vitry-le-Francois and Seimaise and have crossed the river Marne, and it is in the hilly, wooded country between Vitry and Verdun the Germans have lost Revinny and Brabant.

The French appear to have taken the offensive along almost the entire front, as indicated by successes in the east between Lunville and Saint Die, where they have retaken several towns they evacuated a fortnight ago.

Success Clings to Russians.

In the battles that are proceeding in Galicia and Russian Poland success appears to cling to the Russians. They are reported to have won a decisive victory at Krasnik and Tomaszow Thursday. The Austrian and German armies are estimated at forty divisions of infantry and eleven of cavalry, totalling more than a million men, and reinforced by several German divisions. The Russians describe their line as extending over several hundred versts (a verst is about two-thirds of a mile).

Fighting has been proceeding continuously since Aug. 25 and the Russians report victories both in Poland and Galicia.

Vienna says the Austrians were successful during the first stages of the fighting in Galicia and took 10,000 prisoners, but that they were obliged to withdraw from Lemberg and concentrate in a better position because the north wing of the Austrian army in Poland was threatened by greatly superior numbers.

The battle of Rawa Ruska, which now is proceeding, apparently will prove the crucial test of the Austrian army. Archduke Frederick of Austria is with the army there. A message from sources unfriendly to Austria declares that the result of the Galician operations will determine whether the Austrian army will continue to be a factor in the war. Austria is reported to be enrolling her last classes of reserves.

### AMERICANS PRAISED FOR AIDING INJURED

Officials Visit Wounded French, German and British.

Paris, Sept. 14.—Former Premier Aristide Briand, General Gallieni, military governor of Paris, and American Ambassador Herrick visited the American section of the Pasteur institute, where about 100 French, British and German wounded are seeking treatment. M. Briand, in the name of the government, thanked the women of the American colony, the physicians and nurses.

Mr. Herrick talked with the German wounded, especially the officers, and inquired how they were being cared for. They replied that nothing more could be done for them than was being done.

The visitors also called at St. Martin's hospital, where they talked with the German wounded, as well as with the French and British. The Germans expressed satisfaction with their treatment.

Special to Dispatch:

London, Sept. 14, 2:50 P. M.—The first stage of the battle of Marne, which from the numbers of its fighting men engaged, its long battle line and terrific slaughter, described as the "Battle of the Ages," appears to have been won by the French and British armies, but the main German army is still intact and the supreme clash is to come the present week and may see even more desperate encounters than any of which have taken place.

### AUSTRIAN ARMY IN SORE STRAITS

Special to The Dispatch:

London, Sept. 14, 2:50 P. M.—Dispatches from many sources including Vienna indicate that the Austrian army is in sore straits, but the story of its complete destruction is apparently exaggerated, as the latest Russian reports show that General Russky's forces are still meeting with organized resistance.

### CLAIM GERMAN ROUT IS DEEPENING

Special to The Dispatch:

London, Sept. 14, 11:50 A. M.—The Times correspondent at Bordeaux says the German rout is deepening into a complete disaster, that the invaders are turning homeward by the way of St. Quentin and Mezieres, on the Luxembourg frontier, that the German forces in Argonne and south of Verdun are likely to be cut off from the remainder, in which event they can escape only at a heavy price.

### REPORT FROM VON STEIN

German Commander Admits His Forces Are Retiring.

Paris, Sept. 14.—A Havas agency dispatch from Bordeaux gives the following communication, signed by General von Stein and officially issued at Berlin:

"The news is received from headquarters that the army situated east of Paris, which had advanced across the Marne, was attacked by a superior force of the enemy proceeding from Paris between Meaux and Montmirail.

"The battle lasted two days, resulting in heavy losses on both sides. The French troops advanced and our troops retreated, followed by columns of strong, fresh French troops."

### ARMY RETURNS TO ANTWERP

Belgians Say Their Expedition Was Very Successful.

London, Sept. 14.—After four days' fierce fighting, says an Antwerp dispatch to the Exchange Telegraph company, the Belgian field army, which made a sortie from Antwerp, has returned to the protection of the Antwerp fortifications. Two German army corps and 15,000 sailors and men belonging to the landsturm took part in the fighting against the Belgians in these operations. It is said that the Belgians have been completely successful and have accomplished their desired object in preventing the German force of occupation from sending reinforcements to aid the German armies in France.

### PRAISES GENERAL JOFFRE

French Press Gives Him Credit for Defeating Germans.

Paris, Sept. 14.—Reports from the different regions of North France continue to indicate a general withdrawal of the Germans. Lille and Amiens have been evacuated.

The disorder which accompanied the retreat of the Germans is shown by the capture of numerous groups of stragglers.

A Havas agency dispatch from Troyes says four German flags were taken there and were received with a great demonstration.

The press pays a generous tribute to the military genius of General Joffre, who, after ten days' retreat, was able to reform his army and repulse an enemy redoubtable as General von Kluck.

### PROCLAIMS PEACE SUNDAY

Minnesota Governor Asks People to Pray on Oct. 4.

St. Paul, Sept. 14.—Governor Herrick has proclaimed Sunday, Oct. 4, as Peace day throughout the state.

He has asked the people of Minnesota to set aside that day for the especial observance of prayer in the interests of peace on the European continent.

The various lodges of the Twin Cities have called the attention of their members to the Peace day plans in order that the observance may be observed generally.

### JOFFRE IS JUBILANT AT VICTORY

French General Submits Report.

DECLARES GERMANS RETIRING RAPIDLY

French and British Armies Are Vigorously Pursuing.

Bordeaux, Sept. 14.—The minister of war, Alexandre Millerand, communicated to the cabinet the following telegram, which he had received from General Joffre, commander-in-chief of the French forces:

"Our victory is confirmed as more and more complete. Everywhere the enemy is in retreat. Everywhere the Germans are abandoning prisoners, wounded and munitions of war."

"After heroic efforts on the part of our troops during this formidable struggle, which lasted from Sept. 5 to 12, all our arms are flushed by success and executing a pursuit unexampled for its extent."

"On our left we have crossed the Aisne below Soissons, thus gaining 100 kilometers (about sixty-five miles) in six days' fighting. "Our armies of the center are already north of Marne, while those of Lorraine and the Vosges are arriving on the frontier. The morale, endurance and ardor of our troops and those of our allies are admirable. The pursuit will be continued with all our energy. The government of the republic may well be proud of the army which it has equipped."

### HAVE 200,000 PRISONERS

Germans Also Publish Their Twenty-first Casualty List.

Rotterdam, via London, Sept. 14.—A dispatch to the Nieuwe Rotterdamse Courant from Berlin says that the number of prisoners of war now in Germany is about 200,000. Among these prisoners are 1,830 Russian officers and 91,400 Russian privates; 440 Belgian officers and 30,200 Belgian privates, and 160 English officers and 7,350 British privates. The captives include two commanding generals of the French army, two commanding generals and thirteen generals of lesser rank of the Russian army and the Belgian commandant at Liege.

Another dispatch says that the total losses sustained by the Germans, including the twenty-first casualty list, which has just been published, are given as 6,535 dead, 8,391 seriously wounded and 4,242 slightly wounded. The number of officers killed and wounded was extremely high. The ratio of the wounded to the dead was about two to one, which is also extreme, the usual ratio being five to one. It is not known to what date the list extends.

### STAGGERS GERMAN PEOPLE

News of Retreat Produces Feeling of Depression.

Geneva, Switzerland, via Paris, Sept. 14.—News of the German retreat, despite every precaution, has passed through Switzerland to the north and caused profound depression in Germany, after so many announced victories.

According to advices received here people have gathered in the streets in various German towns, shouting: "Tell us the truth! Give us the news!"

The newspaper offices at Munich have been closed, as disorders are feared.

It is reported that the news of the steady retirement of the Germans in France has trickled into Berlin and humbled the people.

### GERMAN REPORTS DELAYED

Berlin Gives No Details of Fighting Since Sept. 6.

Berlin, via Copenhagen and London, Sept. 14.—A correspondent at German headquarters reports that a terrific struggle has been raging for the past eight days, not only around Paris, but along the whole front from Paris to Verdun, Nancy and Lorraine.

The reports of the Paris battle cover only a sortie from Paris on Sept. 5, and an attack by the French and English on Sept. 6; they do not touch the latter phases of the conflict.

### NEW COURT HOUSE, NEW COUNTY JAIL

The county commissioners, at a special meeting held on Saturday evening, voted in favor of submitting to the voters of the county the proposition of bonding the county in the sum of \$150,000 to build a new court house, bonds to draw not exceeding 5 per cent interest.

The commissioners also voted in favor of submitting to the voters of the county the proposition of bonding the county in the sum of \$45,000 to build a new county jail, the money to be borrowed from the state at 4 per cent, the first \$5,000 being payable in 1920 and the remaining \$5,000 installments annually thereafter.

This is the greatest improvement for the county ever planned by the county commissioners and puts squarely before the people the solving of the question, shall Crow Wing county, destined to be one of the richest in the state, have a court house requisite for its growing needs.

### AWAITING SLIGHTEST OPENING

President Ready to Urge Mediation.

BRYAN IS ALSO ALERT

American Officials May Take Initiative to Secure Peace.

Washington, Sept. 14.—President Wilson may not wait for any of the belligerent powers to take the initiative in a movement toward peace. The president and Secretary Bryan are keenly alert for the slightest opening in the diplomatic situation abroad that might encourage them to press the powers for an acceptance of mediation.

If a willingness arises from any authoritative quarter of a willingness on the part of the belligerents to discuss peace terms the American government will be quick to take advantage of the opening.

In this connection some prominent diplomats did not hesitate to say that President Wilson's personal influence in Great Britain and France, as a result of his outspoken and successful appeal to the American congress to repeal an act which he believed in contravention of a treaty, is an important factor in a movement for peace.

Both Great Britain and France have stated unequivocally to the American government that they always are willing to talk peace, but must know definite terms, declaring with emphasis their belief that the peace of Europe obtained through the present war must be permanent and no temporary truce. The allied powers have informed the American government they will insist that German militarism is crushed totally.

No Reply From Germany.

No reply from the emperor to President Wilson's informal note has reached here.

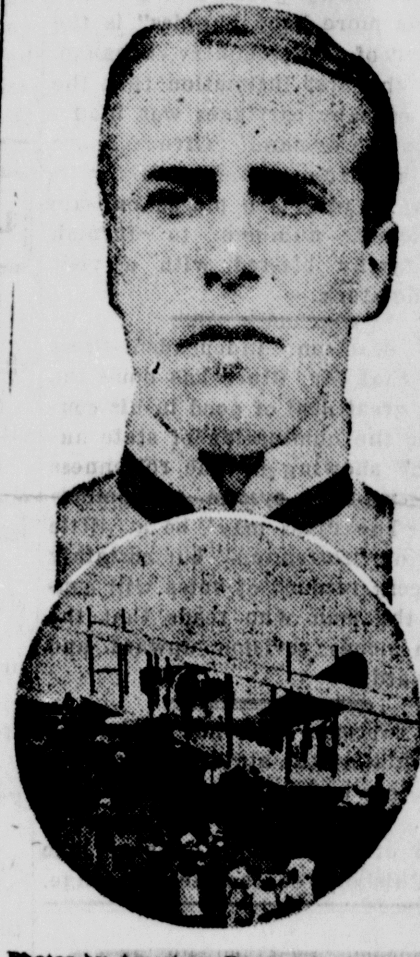

It had not been a matter of general knowledge that beginning with the dinner in New York a week ago, attended by Count von Bernstorff, the German ambassador, and Oscar Straus, American member of The Hague peace tribunal, an informal movement was under way to learn Germany's attitude toward peace.

Diplomats and officials discussed among themselves the details of the seven days of peace parleying as they were published and there was a notable absence of the indifference with which talk of peace was regarded several days ago. This was due, it was believed, largely to the apparent turn in the tide of battle in France and the feeling among diplomats of the allied powers that the German troops soon would be forced back to the borders of France and Belgium.

Notwithstanding the vigorously phrased statements through official channels last week that Great Britain, France and Russia will not make peace until they have defeated Germany decisively it was admitted in many quarters here that a favorable answer from Emperor William to the American government's inquiry might change the entire aspect of the situation.

Economy.

"Are you economizing?" "I should say so," said the man who is always cheerful. "My wife bought enough marked down clothes to save \$50 on the original price."—Washington Star.

## BATTLE OF MARNE DESCRIBED AS BATTLE OF THE AGES

### GERMANS GENERALLY RETIRING

Nearly All Armies Moving North.

ONE WEEK PRODUCES REMARKABLE CHANGE

Military Critics Say Battle of Marne Has Decided First Phase of the War.

London, Sept. 14.—The sixth week of war between Germany and France, Belgium and Great Britain has brought a vast transformation. The pursued are now the pursuers. The irresistible sweep of seven German armies through Belgium into France met an immovable force at the Marne river.

The army of General von Kluck, which battled so long to turn the allies' western flank, itself was outflanked slowly and steadily. Its retirement before the small, but hardy British army turned the tide of battle. If the French official reports are correct all the German armies except that facing Verdun and a few miles southwest are retreating.

General von Kluck's army, which a week ago was a few miles to the southeast of Paris, has retired more than sixty miles to the northeast, while on the extreme right the army of the Bavarian crown prince, which attacked the French eastern line, from Nancy to Epinal, has fallen back to the frontiers of Lorraine, permitting the French to recapture Lunéville and several other towns.

Pictures Retreat as Hurried.

General Joffre, the French commander-in-chief, pictures the retreat as hurried, if not disorderly, with the Germans abandoning prisoners, wounded and supplies.

Sunday, Sept. 6, was the darkest day of the war for the allies. The French government emigrated from Paris to Bordeaux in a long, sad, procession of motor cars. An attack upon the capital appeared imminent and the main German force had hammered a huge wedge into France between Paris and Verdun, with its center some miles south of that line.

The French people trembled with the question whether their army was not a beaten army; whether the history of 1870 would repeat itself.

The battle of the Marne, which was decided in a week, is regarded by military critics as the most marvelous reversal of roles of two armies known. In their view it appears to have decided the first phase of the war and to have made impossible the plan which the German staff is supposed to have had of smashing the French by an comprehensive stroke and then turning the bulk of the German forces eastward to confront the Russians.

Military Experts Cautious.

The military experts, however, are still cautious. While recognizing the possibility that the German armies still may rally and draw a strong defensive line they recognize also the possibility of the almost complete evacuation of France and Belgium.

Paris announces that the Germans have evacuated Amlens. The whereabouts of German reinforcements of 60,000 reported to be marching south on three roads in that neighborhood is unknown.

The Belgian army is sticking to the determination to recapture Brussels and reports it has cut the railroad between Liege and Brussels, thus severing an important German line of communication, and to be rushing the scattered German forces, composed for the most part of reservists, towards the southeast.

Military authorities in France consider the position of the German armies critical. The army which was south of the Argonne forest, they argue, hardly can retreat eastward on account of the danger from the strongly held French fortress of Verdun, while the mountainous, wooded character of the Argonne district renders retreat due north impracticable. The left wing of the Germans, they believe, must retreat in a northwesterly direction.

May Retreat on Luxembourg.

They also cherish the hope that the Belgians may succeed in clearing the Germans out of Brabant, when the entire German army would be obliged to retreat on Luxembourg, an operation which they liken to the passing of a

Rome, via Paris, Sept. 14.—A dispatch from Turin quotes the Stampa as saying Cardinal Bourne, archbishop of Westminster, is conveying from the pope to King George a letter filled with sympathy for the British nation, described as the "guardian of peace and master of justice."

The Stampa adds that the pope asked the Austrian and Prussian ambassadors to give safe conduct for the return of Cardinal Mercier, primate of Belgium, to Belgium.

This was refused, whereupon the pontiff answered that he would remember the unpleasant refusal.

#### THREE OCCUPANTS KILLED

French Aviator Destroys German Flying Machine.

The Curtiss Aeroplane company at Hammondsport is turning out several other machines, exact duplicates of the America, and it is said that these have been sold for the same purpose. The Curtiss plant is running night and day with an extra force of men and is turning out machines faster than at any time since aviation began. Lieutenant Porte, who planned to attempt the transatlantic flight and who is a British subject, is now conducting an aviation school, training men for service in the present war.

### SERBIANS CHERISH VISIONS OF VICTORY

Their Armies Are Now Invading Austria-Hungary.

Nish, Serbia, via London, Sept. 14.

It is announced that the Serbian offensive continues successfully. Serbian troops have crossed the Save at several points and it is said the Serbians are being received enthusiastically by the population of Hungary.

A semi-official statement reviewing the operations against Austria since the outbreak of the war makes no mention of the capture of Semlin, before reported, but says:

"The Austrians have sent all their troops to the East to stem the advance of the enormous Russian wave. The small total force which it has at its disposal already augurs fresh success for us. If by a miracle Austria escapes the catastrophe by which it is menaced it will be little Serbia that has dealt the severest blow to its prestige."

The statement asserts that in August Austria threw one-third of its total force, 350,000 men, against Serbia, 200,000 of these at the weakest point along the frontier of the Save and Drina from Ljubova to Shabat.

After sanguinary fighting the tide turned on Aug. 19, the Austrians being completely beaten and pursued along the whole line.

### AWAITING SLIGHTEST OPENING

President Ready to Urge Mediation.

BRYAN IS ALSO ALERT

American Officials May Take Initiative to Secure Peace.

Washington, Sept. 14.—President Wilson may not wait for any of the belligerent powers to take the initiative in a movement toward peace. The president and Secretary Bryan are keenly alert for the slightest opening in the diplomatic situation abroad that might encourage them to press the powers for an acceptance of mediation.

If a willingness arises from any authoritative quarter of a willingness on the part of the belligerents to discuss peace terms the American government will be quick to take advantage of the opening.

In this connection some prominent diplomats do not hesitate to say that President Wilson's personal influence in Great Britain and France, as a result of his outspoken and successful appeal to the American congress to repeal an act which is believed in contravention of a treaty, is an important factor in a movement for peace.

Both Great Britain and France have stated unequivocally to the American government that they always are willing to talk peace, but must know definite terms, declaring with emphasis their belief that the peace of Europe obtained through the present war must be permanent and no temporary truce. The allied powers have informed the American government they will insist that German militarism is crushed totally.

No Reply From Germany.

No reply from the emperor to President Wilson's informal note has reached here.

It had not been a matter of general knowledge that beginning with the dinner in New York a week ago, attended by Count von Bernstorff, the German ambassador, and Oscar Straus, American member of The Hague peace tribunal, an informal movement was under way to learn Germany's attitude toward peace.

Diplomats and officials discussed among themselves the details of the seven days of peace parleying as they were published and there was a notable absence of the indifference with which talk of peace was regarded several days ago. This was due, it was believed, largely to the apparent turn in the tide of battle in France and the feeling among diplomats of the allied powers that the German troops soon would be forced back to the borders of France and Belgium.

Notwithstanding the vigorously phrased statements through official channels last week that Great Britain, France and Russia will not make peace until they have defeated Germany decisively it was admitted in many quarters here that a favorable answer from Emperor William to the American government's inquiry might change the entire aspect of the situation.

Economy.

"Are you economizing?" "I should say so," said the man who is always cheerful. "My wife bought enough marked down umbrellas to save \$50 on the original price."—Washington Star.

### THE WEATHER

Temperature record taken at Gull Lake dam by caretaker, Arthur L. Mampel.

Sept. 11, maximum 75, minimum 51.

Sept. 12, maximum 69, minimum 53.

Sept. 13, maximum 62, minimum 50. Rainfall 74 hundredths inches.

The democratic Duluth Herald insists that Congressman Hammond is just as good a friend of county opinion as is Wm. E. Lee, and the St. Cloud Journal-Press says "tell that to the German democrats of Stearns county."

Five tons of human hair was recently shipped in one lot from China to England to be used in the woolen industry. If this European war continues there will be enough human hair wasted to revolutionize the woolen industry.

The organization of an "Old Settlers Newspaper Association" is suggested by the Preston Times, a quarter of a century of continuous service in the harness being the credentials for membership. Strictly adhered to that would make an association of real newspaper men, and Brainerd could furnish three members able to qualify.

"This country needs less automobiles and more baby buggies" is the statement of an up-country exchange. This is the first intimation that the output of baby carriages was inadequate to the demand. Give us more babies and the manufacturers will see that buggies are placed on sale in sufficient numbers to furnish every family blessed with a visit from the stork.

The Madison Independent-Press thinks that Mr. Rines has done the state a great deal of good in his contest for the nomination of state auditor by showing up the rottenness of the primary system of nominations. The Press may be a little strong on "rottenness" but certainly the recent recount of votes will convince the man who reads that the system needs revision upward and downward.

The supreme court has rendered a decision that the state is the owner of iron ore under meandered lakes or rivers. The case arose over the ownership of ore under Longyear lake near Chisholm on the Mesaba range.

The property along the shore is owned by private properties who claimed the right to undermine the lake and take out the ore. This was contested by the state. The decision, it is claimed, means many millions for the state funds.

Bob Dunn in the last issue of the Princeton Union has the following to say of W. A. Fleming, and as Mr. Dunn served in the legislature with the gentleman referred to he is speaking from a personal knowledge: "Crow Wing county never had an able representative at the state capitol than William A. Fleming. We understand Mr. Fleming is a candidate for the house this year, and we certainly hope he will be elected. Mr. Fleming is not a talking machine but when the occasion requires it he can talk vigorously, and he has the courage of his convictions. Northern Minnesota will need men of the Fleming type in the next legislature."

Now that the contest for the nomination of state auditor has been settled and J. A. O. Preus accorded the nomination, which the recount showed he was entitled to as recorded by the result of the primary election, all hands are united for the election of the republican state ticket. Mr. Rines is thoroughly satisfied that he was fairly defeated, the revision of the votes in enough counties to fully establish that fact having been made, and he has pledged his earnest support to Mr. Preus' candidacy. Mr. Preus will take the stump in behalf of Wm. E. Lee, the republican candidate for governor.

The numerous hunters who come to this section of the state at this season of the year to enjoy the sport afforded should remember the provision of the federal game regulation that prohibits shooting between sunset and sunrise. This provision is made that some protection may be afforded game birds, especially duck, and that they may not be slaughtered in quantities that will deplete their numbers. It may not be generally known that wood duck are protected by this law until September 1, 1918, and whoever kills one of this species is liable to prosecution.

## For All We Have and Are

By RUDYARD KIPLING.

Copyright, 1914, by Rudyard Kipling. All rights reserved.

I.  
For all we have and are,  
For all our children's fate,  
Stand up and meet the war!  
The Hun is at the gate.  
Our world has passed away,  
In wantonness o'erthrown.  
There's nothing left today  
But steel and fire and stone.  
Though all we knew depart,  
The old commandments stand:  
"In courage keep your heart!  
In strength lift up your hand!"

II.  
Once more we hear the word  
That sickened earth of old:  
"No law except the sword,  
Unsheathed and uncontrolled!"  
Once more it knits mankind:  
Once more the nations go  
To meet and break and bind  
A crazed and driven foe.

III.  
Comfort, content, delight—  
The ages' slow bought gain—  
They shriveled in a night.  
Only ourselves remain  
To face the naked days  
In silent fortitude,  
Through perils and dismay  
Renewed and re-renewed.  
Though all we made depart,  
The old commandments stand:  
"In patience keep your heart!  
In strength lift up your hand!"

IV.  
No easy hopes or lies  
Shall bring us to our goal,  
But iron sacrifice  
Of body, will and soul.  
There's but one task for all—  
For each one life to give,  
Who stands if freedom fall?  
Who dies if England live?

I.  
For all we have, and are,  
For all our children's fate,  
Stand up and meet the war!  
The Hun is at the gate.  
Our world has passed away,  
In wantonness o'erthrown.  
There's nothing left today  
But steel and fire and stone.  
Though all we knew depart,  
The old commandments stand:  
"In courage keep your heart!  
In strength lift up your hand!"

II.  
Once more we hear the word  
That sickened earth of old:  
"No law except the sword,  
Unsheathed and uncontrolled!"  
Once more it knits mankind;  
To face the naked days  
To meet and break and bind  
A crazed and driven foe.

III.  
Comfort, content, delight—  
The ages' slow bought gain—  
They shriveled in a night.  
Only ourselves remain  
To face the naked days  
In silent fortitude,  
Through perils and dismay  
Renewed and re-renewed.  
Though all we made depart,  
The old commandments stand:  
"In patience keep your heart!  
In strength lift up your hand!"

IV.  
No easy hopes or lies  
Shall bring us to our goal,  
But iron sacrifice  
Of body, will and soul.  
There's but one task for all—  
For each one life to give  
Who stands if freedom fall!  
Who dies if England live?

## BIG EXPENSE BILLS FILED

Detectives Investigating Recent Crosby Blind Pigs Cases Allowed Expense Money Various Kinds

ONE HAD A TRIP TO MILWAUKEE

Five Crosby Men Seek to Restrain Council from Paying the Bill of \$1,154.50

Crosby, Minn., Sept. 11.—Following in the wake of the detectives investigation of blind pig cases in Crosby comes a whole aftermath of trouble. The bill for detective work and expenses was allowed and ordered paid by the village council. Subsequently five citizens, E. O. Sjoedin, Andrew Burrud, T. H. Lake, Herman Lefko and Peder Larson filed an injunction against the village to restrain the council from paying the bill allowed.

Signers of the notice of appeal, it appears, objected to a lot of the expenses incurred. The whole list is published in the Crosby Courier and several items are quoted in part: Expenses of Supt. T. H. Bellin, Aug. 1 shaking dice 30c, pool 20c, etc. On August 4 to 8 there was spent \$15 including meals, railway fare to Minneapolis \$2.92, berth \$1.50, railway fare Deerwood to Brainerd for Mrs. Bellen 34c, porter 25c, Ingalls 25c. On August 9 railway fare and parlor car Minneapolis to Milwaukee \$8, dinner on train \$1.50, supper on train \$1.25, breakfast on train 90c, auto at Minneapolis to depot to make connections 50c, car fare at Milwaukee 20c, telegram on train 50c, drinks at cafe in Milwaukee 60c. On August 10 hotel and meals at Milwaukee \$6, telegram for Mr. Pitt 50c, car fare 20c, telephone 50c, etc.

## PLEDGE TO POLES A MASTER STROKE

Czar's Promise of Freedom Averts Feared Revolt.

## FEALTY IS VITAL TO RUSSIA

Poles Treated With More Consideration by Russia Than by Prussia—People Have Cherished Bitter Grievance Since Change of Policy, When Object Was German Colonization.

It is impossible to exaggerate the importance of Russia's declaration that Poles loyal to the Slav cause would be treated with the utmost consideration and that autonomy for Poland would result. The Poles form an important part of the czar's empire, particularly in these troublous times, owing to the fact that Russian Poland lies on the German frontier, and all the attacks of Germany on her enemy must be made on Polish territory.

The political experts of Europe have long predicted that this would be the first move of Russia in the event of war breaking out between that country and Germany or with Austria. The Poles of Russia have always enjoyed more freedom than the Poles living under the Kaiser or under the Emperor Francis Joseph. On the other hand, it has been predicted that should Germany become involved in international conflict she would shortly face an insurrection at home among the Poles.

## First Annexed by Prussia in 1772.

The Poles, first annexed by Prussia in 1772, hate the Prussians with all the hatred that characterizes a people oppressed by an overlord. The annexation was apostrophized as the "greatest crime of the century" by Baron von Stein, the great Prussian patriot. The Poles in Prussia, as afterward in Austria, were long treated with consideration. The congress of Vienna had decided that "the (Poles) nationality of the population must be respected, that their mother tongue must enjoy perfect equality with the German language, that they ought to have the right to compete for all the posts and dignities throughout the country and that, given equal abilities, they ought to be given preference for all public offices in the countries they inhabit."

To these promises the Prussian government remained faithful for more than two generations, so that when the Polish rebellion of 1863 broke out in the Russian province the Poles of Prussia held aloof. During the war of 1870 the Polish regiments distinguished themselves against the French. They marched, of course, under the Prussian flag, but sang their own patriotic hymn, "Poland has not perished yet."

## Policy Changed in 1885.

It was not until 1885 that the Prussian

## TO SAVE EYES

Is the Object of This Free Prescription—Try It if Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes, because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten-cent store, and oftentimes get glasses that they do not need, or which, after being used two or three months, do their eyes more injury than good. Here is a simple prescription that every one should use:

5 grains Optina (1 tablet), 2 ounces Water.

Use three or four times a day to bathe the eyes. This prescription and the simple Optina system keeps the eyes clean, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eyes and contains no ingredient which would injure the most sensitive eyes of an infant or the aged. Any druggist can fill this prescription promptly. Try it and know for once what real eye comfort is.

## PEERLESS Long Cut Tobacco

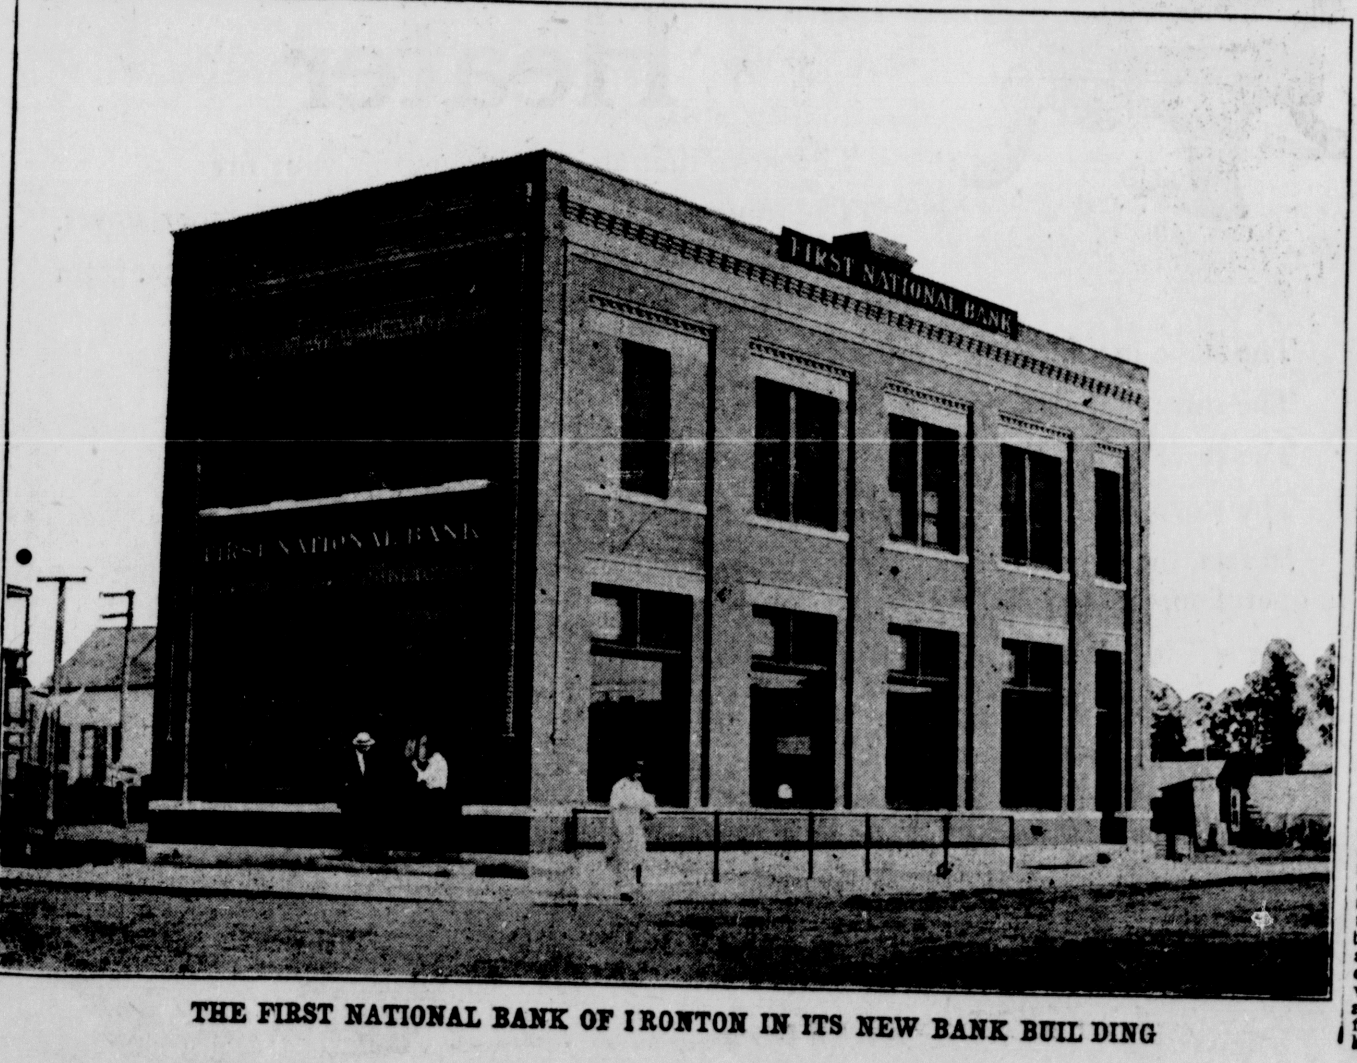

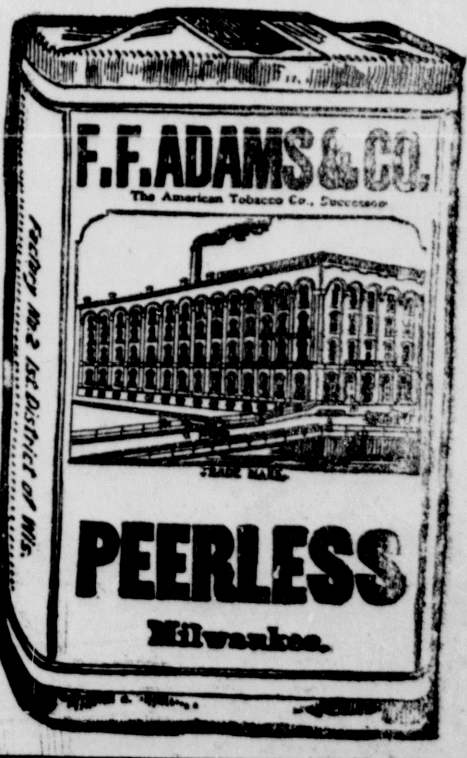

We've spent fifty years and millions of dollars creating tobacco brands. And we know that the reason PEERLESS pleases the hearty smoker or chewer is because its quality is honest and its value the biggest.

We use pure Southern Kentucky leaf in PEERLESS. We carefully age it for three to five years so as to bring out its full richness. The process can't be hurried. So you see no other tobacco can be the same as PEERLESS—and PEERLESS itself can never vary in quality.

No matter what tobacco you may be using now, just try PEERLESS for a week, and see if PEERLESS doesn't give you greater satisfaction, day in and day out, working or resting, chewing or smoking, outdoors or indoors. By the end of the week you'll be a permanent user of PEERLESS. Sold everywhere in 5c packages.

## PLEDGE TO POLES A MASTER STROKE

Czar's Promise of Freedom Averts Feared Revolt.

### FEALTY IS VITAL TO RUSSIA

Poles Treated With More Consideration by Russia Than by Prussia—People Have Cherished Bitter Grievance Since Change of Policy, When Object Was German Colonization.

It is impossible to exaggerate the importance of Russia's declaration that Poles loyal to the Slav cause would be treated with the utmost consideration and that autonomy for Poland would result. The Poles form an important part of the czar's empire, particularly in these troublous times, owing to the fact that Russian Poland lies on the German frontier, and all the attacks of Germany on her enemy must be made on Polish territory.

The political experts of Europe have long predicted that this would be the first move of Russia in the event of war breaking out between that country and Germany or with Austria. The Poles of Russia have always enjoyed more freedom than the Poles living under the Kaiser or under the Emperor Francis Joseph. On the other hand, it has been predicted that should Germany become involved in international conflict she would shortly face an insurrection at home among the Poles.

### First Annexed by Prussia in 1772.

The Poles, first annexed by Prussia in 1772, hate the Prussians with all the hatred that characterizes a people oppressed by an overlord. The annexation was apostrophized as the "greatest crime of the century" by Baron von Stein, the great Prussian patriot. The Poles in Prussia, as afterward in Austria, were long treated with consideration. The congress of Vienna had decided that "the (Poles) nationality of the population must be respected, that their mother tongue must enjoy perfect equality with the German language, that they ought to have the right to compete for all the posts and dignities throughout the country and that, given equal abilities, they ought to be given preference for all public offices in the countries they inhabit."

To these promises the Prussian government remained faithful for more than two generations, so that when the Polish rebellion of 1863 broke out in the Russian province the Poles of Prussia held aloof. During the war of 1870 the Polish regiments distinguished themselves against the French. They marched, of course, under the Prussian flag, but sang their own patriotic hymn, "Poland has not perished yet."

### Policy Changed in 1885.

It was not until 1885 that the Prus-

sian policy toward the Poles was changed. On March 25 of that year an order was issued that no Poles except those owing allegiance to the Prussian crown might remain in Posen after the end of the year. In 1886 the Prussian landtag placed at the disposal of a government commission \$25,000,000 for buying out Polish landed proprietors and settling on their estates German "colonists." Bismarck then openly avowed his object of Germanizing these provinces.

From that time on the lines have been drawn even tighter. The Polish language was banished first in the secondary schools, then in the elementary schools. Even in religious instruction the language could not be used. In 1908 Poles could not be spoken in public meetings held in a community where the German population predominated.

### Long Cut Tobacco

We've spent fifty years and millions of dollars creating tobacco brands. And we know that the reason PEERLESS pleases the hearty smoker or chewer is because its quality is honest and its value the biggest.

We use pure Southern Kentucky leaf in PEERLESS. We carefully age it for three to five years so as to bring out its full richness. The process can't be hurried. So you see no other tobacco can be the same as PEERLESS—and PEERLESS itself can never vary in quality.

No matter what tobacco you may be using now, just try PEERLESS for a week, and see if PEERLESS doesn't give you greater satisfaction, day in and day out, working or resting, chewing or smoking, outdoors or indoors. By the end of the week you'll be a permanent user of PEERLESS. Sold everywhere in 5c packages.

## SPORT NOTES

### OF THE CITY

Bowling Will Soon be in Progress in  
BRAINERD, CAMPBELL ALLEYS BE-  
ING PUT IN SHAPE

FOOTBALL, CITY & HIGH SCHOOL

Baseball at the Crow Wing County  
Fair, Minneapolis Journal on  
"The Mobilization"

Baseball will soon be succeeded by  
football and bowling. It is ex-  
pected to again arrange for bowling  
tournaments at the alleys in Brain-  
erd. The Campbell alleys are being  
gotten in shape for the coming sea-  
son's play.

Football will have its representa-  
tives, the high school team putting  
up its usual good eleven and there  
are also hopes of having a city team  
on the gridiron.

Baseball will be represented at  
the Crow Wing county fair at Pe-  
quot. The fair is held on Sept. 16,  
17 and 18. The Speedwells play Pe-  
quot two games in fair week, on  
Thursday morning and Friday after-  
noon. Molstad, Peterson and  
Butke will handle the pitching end  
of the game. The Brainerd Elks  
play Pine River on "Brainerd Day,"  
Thursday afternoon, Sept. 17.

Under the heading "The Mobiliza-  
tion" our Dutch Uncle friend of the  
Minneapolis Journal has some witty  
sallies on the recruits who are to  
take up the pigskin game. They are  
special interviews with Tiger Tooth-  
ed Monaghan, of Ruff Neck, Wis.,  
stevedore in a sawmill, who will take  
in football at the University of Wis-  
consin and a fall course in higher  
harmonics; Puddler Pokington of  
Quincy, Ill., the strongest slag shag-  
ger in the Gem City Stove Works who  
goes to the University of Chicago,  
where he expects to perfect himself  
in philosophic ethics and incidentally  
play under Stagg; of Ann Arbor,  
Mich., which is looking for unattached  
file-necked, bungalow-browed,  
gorilla-armed and Percheron-legged  
youths, between the ages of 18 and  
38 who are yearning for higher cul-  
ture.

Under the date line, Brainerd,  
Minn., Sept. 12 (Special), the Min-  
neapolis Journal, a most dependable  
and staid family journal, gives this  
blazing meteor of news: Joe  
Chapleaux, alias Man-Who-Won't-  
Wash, of the Mille Lacs clan of Chip-  
ewas, has completed his wild rice  
harvest and is halting between a  
football course, with banjo instruc-  
tion on his side, at the state univer-  
sity, or a career as a world series  
pitcher with Cornelius McGillicuddy  
at Philadelphia. His wife, the hap-  
py-hearted Soused-in-The-Sunshine,  
favors Minneapolis, as the quality of  
lemon extract sold there appeals to  
her, but Joe leans toward Philadel-  
phia and the out-and-out profession-  
al life.

Under the heading "Little Falls  
Loses Cockiness and now urges the  
Organization of Class D League in  
This Section," the St. Cloud Times  
says: "Little Falls, the town that  
frowned down a league idea when it  
was advanced early in the season by  
Brainerd and Staples fans, has lost  
much of its cockiness. A frank ad-  
mission is made there that the 1914  
season was a frost financially. Now  
the Little Falls bugs themselves are  
laying plans for a league and suggest  
the organization of a circuit that will  
include St. Cloud, Brainerd, Little  
Falls and a couple of other cities and  
then break into organized baseball."  
After fostering much the same  
plans that were offered by Brainerd  
and Staples but instantly rejected by  
Little Falls in the spring "because  
Little Falls wanted good baseball or  
none at all," the Morrison county  
fans proceed to spring the following  
plans:

Then, with a league organized, the  
plans is to break into organized  
baseball as a Class D. league and se-  
cure a franchise from the national  
commission. The advantages of get-  
ting into organized ball, as did the  
interstate league in the southern part  
of the state, are many. The inter-  
state league is a four-team circuit,  
composed of Albert Lea, Austin, Man-  
kato and Mason City, Iowa. These  
towns are, on the average, very little  
larger than would be these in a  
league in the Central part of the  
state.

A franchise in organized baseball  
would mean an elimination of the  
many disputes and troubles which  
beset an independent organization.  
Umpire troubles would be done away  
with, trouble between clubs or be-  
tween clubs and players could be  
submitted to the national commis-  
sion, if necessary, and salary limits  
and other troubles of the kind would  
be fixed by the franchise and no de-  
viation therefrom permitted.

Although it is rather early to talk  
baseball for next season, if the  
movement is started now the fans of  
the various cities affected will have  
more chance to talk it over and to  
decide what they wish to do in re-  
gard to the proposition. There is  
no reason why central Minnesota  
should not play organized ball, as  
other sections, where the cities are  
as large and in some cases not as  
large, are doing it. If an organiza-  
tion can be perfected in the winter,  
the start in the spring can be so  
much earlier.

## DULUTH WHEELAGE TAX

Aggregates \$16,707.65 This Year--  
The Dog Tax, at \$1.50 Per is  
\$2,887

Brainerd this year puts into op-  
eration its new wheelage tax. This  
tax has for years been a source of  
considerable revenue to the city of  
Duluth and figures are given here-  
with of the operation of that tax and  
the dog tax, at \$1.50 per license, in  
Duluth.

Duluth's revenue from wheelage  
taxes and dog licenses is \$2,435.59  
greater thus far this year than last  
year, according to a statement which  
has been prepared by Lindsay W. Pil-  
key of the treasurer's office.

Last year the wheelage tax re-  
ceipts aggregated \$14,847.06 and the  
number of tags issued was 2,127, as  
compared with \$16,707.65 and 2-  
290 tags to date this year. The ad-  
ditional 183 tags brought an increase  
of \$1,860.59 in revenue.

Although 316 fewer dog licenses  
have been issued this season than  
last, Duluth dog owners have paid  
\$375 more in taxes. This is due to  
the fact that last spring the dog or-  
dinance was amended.

### THE NEWSPAPER PUBLICITY LAW.

Its Application to Other Or-  
ganizations Needed.

The Newspaper Publicity Law,  
enacted by Congress some time  
ago, ought to be applied to  
many other business organiza-  
tions. This law provides that  
all publications must file an af-  
fidavit with the Postmaster Gen-  
eral setting forth full informa-  
tion concerning their ownership,  
management, circulation, etc. A  
copy of this affidavit must be  
printed in certain designated is-  
sues of the paper, and a marked  
copy thereof filed with the Post-  
master General. Failure to do  
this will authorize the Post-  
master General to deny the use  
of the mails to the offending  
publication.

This law has eliminated many  
newspaper evils, such as the  
paid editorial, the overstatement  
of circulation, and hidden own-  
ership. All this

has been attained  
by the simple re-  
medy of publicity!

A similar law applied to other  
organizations would work equal-  
ly well and would eradicate  
many evils, much corruption and  
mismanagement. For instance,  
if labor organizations were re-  
quired to publish full informa-  
tion as to their objects and their  
transactions, and to make public  
an account of their money, dues,  
etc., many abuses that now ex-  
ist would be removed. Labor  
organizations should not curry  
favor from legislatures and  
Congress any more than business  
organizations, and they have no  
right to special exemption from  
anti-trust legislation. A labor  
union is a form of labor trust.  
Labor unions organized for  
honest and lawful purposes are  
necessary and desirable to hold  
in check encroachments of un-  
just employers, but when they  
invoke the aid of Congress for  
special exemptions they are  
merely copying unjust methods  
of other monopolies.

Business should be required to  
give full publicity as to prices,  
volume of business, methods of  
operation, etc., so as to give  
each competitor the right con-  
clusion concerning their particu-  
lar field of industry.

We need publicity of all busi-  
ness organizations to cure the  
evils of mismanagement, and we  
need it for labor unions, as well,  
to bring a stop to their frequent  
abuse and their underhand meth-  
ods of attaining unlawful ob-  
jects. A law which could pro-  
duce such results would bring  
capital and labor into the open  
field and their differences would  
be less and they could be settled  
more amicably than they are  
now.

There is a dealer in your locality who han-  
dles Certain-teed Products. If you consult  
him he will be glad to give you full infor-  
mation about our goods and will quote you re-  
asonable prices on all of them. Be sure the

## TRICK LURES SOLDIERS ON.

Boer Subterfuge Helps the British in  
Clash With the Germans.

Wounded men in the hospitals of  
Boulogne relate these incidents of fight-  
ing between the British and Germans.  
One of the men told of a trick which  
the British learned in the Boer war:  
"The enemy before sending their in-  
fantry against our positions opened a  
hot artillery fire. Our artillery replied  
at first warmly, and then gun after  
gun of the British batteries went si-  
lent."

"What's up now?" I asked a com-  
rade. There were a few minutes more  
of artillery firing from the Germans,  
and then their infantry came on in  
solid formation. We received them  
with rifle fire. Still they came on, and  
still we mowed them down. They were  
getting closer, and we could plainly  
see the dense masses moving. Then  
suddenly the whole of our artillery  
opened fire.

"You see, the cannon had not been  
silenced at all, and it was a trick to  
draw the Germans on. They went  
down in whole fields, for our guns got  
them in open ground, and, of course,  
they soon had enough. It was impos-  
sible for those behind to come on past  
the dead."

There is more catarrh in this section  
of the country than all other diseases  
put together, and until the last few  
years was supposed to be incurable. For  
a great many years doctors pronounced  
remedies, and by constantly failing to  
cure with local treatment, pronounced it  
incurable. Science has proven catarrh  
to be a constitutional disease, and there-  
fore requires constitutional treatment.  
Hall's Catarrh Cure, manufactured by  
F. J. Cheney & Co., Toledo, Ohio, is the  
only Constitutional cure on the market.  
It is taken internally in doses from 10  
drops to a teaspoonful. It acts directly  
on the blood and mucous surfaces of  
the system. They offer one hundred  
dollars for any case it fails to cure. Send

## 100% DIVIDENDS In Fuel Saved Each Winter!

How to get more for  
your money.

That's the rub.

There are ways and ways to econ-  
omize. Some do without; some buy inferior articles.  
*Others make a better use of the money they spend.*

And that is the kind of economy we want to  
talk about.

Did you ever figure out how much your heat cost you?

Do you know that 95 per cent of the ordinary heating  
stoves utilize only *half* of the heat that is in the coal?

Do you realize what this *wasted half* costs you?

Utilize that lost half and you will make a *real saving* and get  
more heat in the bargain.

Every stove with numerous air leaking joints wastes  
more available heat than the stove originally cost. That  
waste is the gas portion of your coal and the heat that  
goes up the chimney in the ordinary stove. Save the gas  
—mix it properly with air—burn it and you develop an  
immense amount of otherwise wasted heat.

But it requires a stove of special construction. It  
must be a stove that is scientifically and mechanically  
perfect. It must be a stove that has no air leaks.

That stove is—

## Cole's Original Hot Blast Heater

The stove that absolutely controls your fire.

The stove that burns the gases wasted by other stoves.

The stove that radiates a constant and steady heat from  
either soft coal, hard coal or lignite.

The stove in which the fire is never out.

The stove that saves its cost in fuel each winter.

The stove that lets no gas or smoke escape into the room.

The stove that gives you every atom of heat that is in your coal.

In fact, the only stove that is absolutely efficient—perfect in construction—perfect  
in operation.

We sell it under a broad guarantee to do all these things.

COME IN AND SEE IT. YOU WILL BE DELIGHTED.

See the name "Cole's" on the feed door of each stove.

None genuine without it.

Under the heading "Little Falls Loses Cockiness and now urges the Organization of Class D League in This Section," the St. Cloud Times says: "Little Falls, the town that frowned down a league idea when it was advanced early in the season by Brainerd and Staples fans, has lost much of its cockiness. A frank admission is made there that the 1914 season was a frost financially. Now the Little Falls bugs themselves are laying plans for a league and suggest the organization of a circuit that will include St. Cloud, Brainerd, Little Falls and a couple of other cities and then break into organized baseball.

After fostering much the same plans that were offered by Brainerd and Staples but instantly rejected by Little Falls in the spring "because Little Falls wanted good baseball or none at all," the Morrison county fans proceed to spring the following plans:

Then, with a league organized, the plans is to break into organized baseball as a Class D. league and secure a franchise from the national commission. The advantages of getting into organized ball, as did the Interstate league in the southern part of the state, are many. The Interstate league is a four-team circuit, composed of Albert Lea, Austin, Mankato and Mason City, Iowa. These towns are, on the average, very little larger than would be these in a league in the Central part of the state.

A franchise in organized baseball would mean an elimination of the many disputes and troubles which beset an independent organization. Umpire troubles would be done away with, trouble between clubs or between clubs and players could be submitted to the national commission, if necessary, and salary limits and other troubles of the kind would be fixed by the franchise and no deviation therefrom permitted.

Although it is rather early to talk baseball for next season, if the movement is started now the fans of the various cities affected will have more chance to talk it over and to decide what they wish to do in regard to the proposition. There is no reason why central Minnesota should not play organized ball, as other sections, where the cities are to larger and in some cases not as large, are doing it. If an organization can be perfected in the winter, the start in the spring can be so much earlier."

#### DULUTH WHEELAGE TAX

Aggregates \$16,707.65 This Year—The Dog Tax, at \$1.50 Per is \$2,887

Brainerd this year puts into operation its new wheelage tax. This tax has for years been a source of considerable revenue to the city of Duluth and figures are given herewith of the operation of that tax and the dog tax, at \$1.50 per license, in Duluth.

Duluth's revenue from wheelage taxes and dog licenses is \$2,435.59 greater thus far this year than last year, according to a statement which has been prepared by Lindsay W. Pilkey of the treasurer's office.

Last year the wheelage tax receipts aggregated \$14,847.06 and the number of tags issued was 2,127, as compared with \$16,707.65 and 2,290 tags to date this year. The additional 163 tags brought an increase of \$1,860.59 in revenue.

Although 316 fewer dog licenses have been issued this season than last, Duluth dog owners have paid \$575 more in taxes. This is due to the fact that last spring the dog or-

#### THE NEWSPAPER PUBLICITY LAW.

Its Application to Other Organizations Needed.  
 The Newspaper Publicity Law, enacted by Congress some time ago, ought to be applied to many other business organizations. This law provides that all publications must file an affidavit with the Postmaster General setting forth full information concerning their ownership, management, circulation, etc. A copy of this affidavit must be printed in certain designated issues of the paper, and a marked copy thereof filed with the Postmaster General. Failure to do this will authorize the Postmaster General to deny the use of the mails to the offending publication.

This law has eliminated many newspaper evils, such as the paid editorial, the overstatement of circulation, and hidden ownership. All this has been attained by the simple remedy of publicity.

A similar law applied to other organizations would work equally well and would eradicate many evils, much corruption and mismanagement. For instance, if labor organizations were required to publish full information as to their objects and their transactions, and to maintain an account of their money, dues, etc., many abuses that now exist would be removed. Labor organizations should not carry favor from legislatures and Congress any more than business organizations, and they have no right to special exemption from anti-trust legislation. A labor union is a form of labor trust. Labor unions organized for honest and lawful purposes are necessary and desirable to hold in check encroachments of unjust employers, but when they invoke the aid of Congress for special exemptions they are merely copying unjust methods of other monopolies.

Business should be required to give full publicity as to prices, volume of business, methods of operation, etc., so as to give each competitor the right conclusions concerning their particular field of industry.

We need publicity of all business organizations to cure the evils of mismanagement, and we need it for labor unions, as well, to bring a stop to their frequent abuse and their underhand methods of attaining unlawful objects. A law which could produce such results would bring capital and labor into the open field and their differences would be less and they could be settled more amicably than they are now.

There is a dealer in your locality who handles Certain-feed Products. If you consult him he will be glad to give you full information about our goods and will quote you reasonable prices on all of them. Be sure the goods are made by us. We stand behind them.

#### TRICK LURES SOLDIERS ON.

Boer Subterfuge Helps the British in Clash With the Germans.

Wounded men in the hospitals of Boulogne relate these incidents of fighting between the British and Germans. One of the men told of a trick which the British learned in the Boer war: "The enemy before sending their infantry against our positions opened a hot artillery fire. Our artillery replied at first warmly, and then gun after gun of the British batteries went silent."

"What's up now?" I asked a comrade. There were a few minutes more of artillery firing from the Germans, and then their infantry came on in solid formation. We received them with rifle fire. Still they came on, and still we mowed them down. They were getting closer, and we could plainly see the dense masses moving. Then suddenly the whole of our artillery opened fire.

"You see, the cannon had not been silenced at all, and it was a trick to draw the Germans on. They went down in whole fields, for our guns got them in open ground, and, of course, they soon had enough. It was impossible for those behind to come on past the dead."

There is more cataract in this section of the country than all other diseases put together. And until the last few years was supposed to be incurable. For a great many years doctors pronounced cataract incurable and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven cataract to be a constitutional disease, and therefore requires constitutional treatment. Hail's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. ## 100% DIVIDENDS In Fuel Saved Each Winter!

How to get more for your money.

That's the rub.

There are ways and ways to economize. Some do without; some buy inferior articles.

Others make a better use of the money they spend.

And that is the kind of economy we want to talk about.

Did you ever figure out how much your heat cost you?

Do you know that 95 per cent of the ordinary heating stoves utilize only *half* of the heat that is in the coal?

Do you realize what this *wasted half* costs you?

Utilize that lost half and you will make a *real saving* and get more heat in the bargain.

Every stove with numerous air leaking joints wastes more available heat than the stove originally cost. That waste is the gas portion of your coal and the heat that goes up the chimney in the ordinary stove. Save the gas—mix it properly with air—burn it and you develop an immense amount of otherwise wasted heat.

But it requires a stove of special construction. It must be a stove that is scientifically and mechanically perfect. It must be a stove that has no air leaks.

That stove is—

## Cole's Original Hot Blast Heater

The stove that absolutely controls your fire.

The stove that burns the gases wasted by other stoves.

The stove that radiates a constant and steady heat from either soft coal, hard coal or lignite.

The stove in which the fire is never out.

The stove that saves its cost in fuel each winter.

The stove that lets no gas or smoke escape into the room.

The stove that gives you every atom of heat that is in your coal.

In fact, the only stove that is absolutely efficient—perfect in construction—perfect in operation.

We sell it under a broad guarantee to do all these things.

COME IN AND SEE IT. YOU WILL BE DELIGHTED.

See the name "Cole's" on the feed door of each stove.

None genuine without it

## TAKES \$60,782 TO RUN SCHOOLS

School Board Plans and Adopts Budget to Cover the Coming Year's Expenses

### ASSIGNMENT OF TEACHERS

Whole Board to Attend Next Council Meeting Pleading for Sewer at Harrison School

The school board meeting was attended by all members except R. R. Wise, Rev. E. J. Carlson and Archie Purdy. George D. LaBar presided.

The finance committee presented its estimate of expenses for the operation of the schools the coming year, which was adopted. It provides as follows:

Salaries	\$41,455.00
Fuel	2,700.00
Repairs	2,800.00
Insurance	900.00
Rentals	800.00
Printing	50.00
Supplies	1,200.00
Miscellaneous	541.99
Interest on bonds other than state	3,775.00
Fund for payment of bonds	2,200.00
For manual training equipment and supplies	300.00
For domestic science supplies	200.00
For paving and sidewalks	360.01
For heating and ventilating improvements at Lincoln school	3,500.00
Total	\$60,782.00
Less estimated available resources	18,282.00

Balance to be levied \$42,500.00

There being a plethora of money available in the sinking fund, the board decided to retire \$10,000 of outstanding bonds. Payrolls were allowed.

The board again took up for discussion the Southeast Brainerd sewerage question. The council has now provided for a district sewer, but no lateral, which leaves the Harrison school marooned and in as bad a situation as ever. It was decided that the entire school board should meet the city council at its next meeting and try to arrive at some solution giving relief.

The teachers committee reported on the assignment of new teachers as follows:

Blanche Door, high school. Theresa Mueller, history and German.

E. A. Kefgen, commercial department. Edna Kruger, normal department.

Laura Donaldson, grade work. Willetta Brant, grade work.

Clara Erickson, grade work. Anna Erickson, grade work.

Ellen Forsberg, grade work. Esther Kastner, grade work.

Lois Gordon, grade work. Nora Smith, grade work.

Anna Greer, principal Lincoln school. Clara Case, principal Lowell school.

The finance committee reported on checking up the quarterly report of the treasurer for the period ending July 31, and also the condition of the sinking fund and the quarterly statement of the secretary, all of which were found correct.

After the board meeting the members inspected the new domestic science room and the recent improvements in the boiler room.

### MRS. CHAS. IRWIN DEAD

Estimable Northeast Brainerd Lady Passed Away Sunday Morning After Short Illness

Mrs. Louise Irwin, wife of Charles Irwin, aged 39, died Sunday morning at her home, 211 Second Avenue Northeast, after a short illness. She was born in Toledo, O., and attended the local high school. She was married in this city about 18 years ago. Her family had been pioneers of the city and are widely known.

Mrs. Irwin leaves a husband and five children, George, Maud, Aileen, Dorothy and Genevieve, her mother Mrs. Louise Denis, a sister Mrs. Omer Burton of Carlton, a brother John Denis in Montana.

She was a member of the Degree of Honor. The funeral will be held Wednesday afternoon at 2:30 from St. Paul's Episcopal church, Rev. Caleb Benham officiating.

The many friends of the family extended to the bereaved ones their heartfelt sympathy.

### DEGREE OF HONOR

To Hold a District Convention in Brainerd on Tuesday, September 15

The Degree of Honor will hold a district convention in Brainerd on Tuesday, Sept. 15. Delegates and visitors will be present from lodges in the district and a good time is promised.

A large number of members from Little Falls lodge are making plans to attend the convention.

W. E. Lively Proud of the Record Made by the Harley-Davidsons at State Fair

W. E. Lively has returned from the state fair. He was especially interested in the records made by the Harley-Davidson motorcycles. In a ten mile event, using stripped stock machines, Red Parkhurst landed first in 8 minutes 50 seconds. Alvin Stratton, also on a Harley-Davidson, was second.

In the three mile event Red Parkhurst again got first place and Alvin Stratton second, both riding Harley-Davidsons. Mr. Lively handles these machines in Brainerd.

## CONGRESS MAY ADJOURN SOON

Session Likely to End by the 1st of October.

### RIVER AND HARBOR BILL

Fate of the Measure is Much in Doubt. Liquor Traffic Gets a Jolt—Senator Smith of Michigan is Accessible. Ancestry Determines Sympathy in War.

By ARTHUR W. DUNN.  
Washington, Sept. 12.—[Special.]—The question of sympathy or partisanship in regard to the war in Europe depends largely upon the birth or ancestry of the person. Occasionally a

man of German ancestry is found who condemns the German militarism as responsible for the war, but expresses sympathy for the German people. For the most part, however, every German American citizen is strong for Germany in the war and hopes to see her win. That has been found true among the members of congress, even though they are somewhat careful not to express their opinions publicly, either officially in the Record or in newspaper interviews.

The Government Neutral.  
The government of the United States is absolutely neutral and is trying to steer clear of all complications. This was not the fact during the war between Japan and Russia. Not only the United States government, but a majority of the country, was permeated in favor of Japan and against Russia.

Much of this was due to the persecution of the Jews in Russia, and the Jewish influence made itself felt in this country. But our government was largely interested by John Hay, who was secretary of state, and was rather pro-English in his views, no doubt due to his ancestry.

to his residence abroad to Great Britain.

R. and H. Bill Still in Doubt.  
There is still some doubt whether the river and harbor bill will pass. Senator William Alden Smith of Michigan declared in the senate that a quorum of senators would not stay to pass that measure. He is one of the men anxious to have it put through. Another man whose judgment is very good on congressional subjects, Congressman Kahn of California, says that congress will not be held in session to pass the river and harbor bill.

It was suggested to him that there was a great demand from many sections of the country for the bill in order to keep men employed, to which Kahn replied:

"Most of those members vitally interested in the bill have been made safe by their primary nominations, and they will not be affected in the vote this fall by failure to pass the river and harbor bill. For that reason I expect to see congress adjourn on the 1st of October."

Tightening the Cords.  
If the Clayton trust bill it will be as

other evidence showing how the cords are tightening on the liquor traffic. While the liquor question was not discussed when the Chilton amendment was offered, it was found that it would apply to the sale of liquors in a state which has adopted prohibition. West Virginia, Chilton's state, has recently put in force a very stringent prohibition law, and his amendment will still further prove restrictive and in conjunction with the Webb-Kenyon law will have a tendency to shut off liquor traffic in prohibition states.

The Lobby and Congress.  
There was an interesting reference to the lobby in regard to the river and harbor bill. It was Senator Gallinger, who said that "there was an insidious lobby at work in favor of the bill." Senator Smith of Michigan declared that he did not know of any lobby. Senator Burton of Ohio, who is opposing the bill, said that so far as he knew all the people who had seen him on the subject had done only what was their right. As Senator Gallinger insisted on criticizing the lobby, it finally brought this declaration from Senator Smith, "Has it come to the point where a senator is not willing to be seen by

the representatives of the chambers of commerce or organizations of business men in regard to legislation?" The Michigan senator said that he was willing to be seen by anybody on any public business and that it was time for a man to leave public life when he arrogated to himself all of the wisdom in the country.

Confession by Moore.  
J. Hampton Moore, complaining in the house that an injustice had been done him by the publication of his absence, one of the results of the Underwood resolution, declared that he had been as loyal in his attendance as any member. "I have been as vigorous as the average member," he asserted, "and I have sometimes been as irritating and annoying as any member." The house applauded that remark because it contained a good deal of truth.

Has Teeth in It.  
The verdict of people who come from West Virginia is to the effect that the prohibition law which has been passed by that state has teeth in it. In other words, it is a prohibition law which prohibits.

For heating and ventilating improvements at Lincoln school	3,500.00
Total	\$60,782.00
Less estimated available resources	18,282.00

Balance to be levied \$42,500.00 There being a plethora of money available in the sinking fund, the board decided to retire \$10,000 of outstanding bonds. Payrolls were allowed.

The board again took up for discussion the Southeast Brainerd sewerage question. The council has now provided for a district sewer, but no lateral, which leaves the Harrison school marooned and in as bad a situation as ever. It was decided that the entire school board should meet the city council at its next meeting and try to arrive at some solution giving relief.

The teachers committee reported on the assignment of new teachers as follows:

Blanche Door, high school. Theresa Mueller, history and German. E. A. Kefgen, commercial department.

Edna Kruger, normal department. Laura Donaldson, grade work. Willetta Brant, grade work. Clara Erickson, grade work. Anna Erickson, grade work. Ellen Forsberg, grade work. Esther Kastner, grade work. Lois Gordon, grade work. Nora Smith, grade work. Anna Greer, principal Lincoln school. Clara Case, principal Lowell school.

The finance committee reported on checking up the quarterly report of the treasurer for the period ending July 31, and also the condition of the sinking fund and the quarterly statement of the secretary, all of which were found correct.

After the board meeting the members inspected the new domestic science room and the recent improvements in the boiler room.

### MRS. CHAS. IRWIN DEAD

Estimable Northeast Brainerd Lady Passed Away Sunday Morning After Short Illness

Mrs. Louise Irwin, wife of Charles Irwin, aged 39, died Sunday morning at her home, 211 Second Avenue Northeast, after a short illness. She was born in Toledo, O., and attended the local high school. She was married in this city about 18 years ago. Her family had been pioneers of the city and are widely known.

Mrs. Irwin leaves a husband and five children, George, Maud, Aileen, Dorothy and Genevieve, her mother Mrs. Louise Denis, a sister Mrs. Omar Burton of Carlton, a brother John Denis in Montana.

She was a member of the Degree of Honor. The funeral will be held Wednesday afternoon at 2:30 from St. Paul's Episcopal church, Rev. Caleb Benham officiating.

The many friends of the family extend to the bereaved ones their heartfelt sympathy.

### WIN BIG EVENTS

W. E. Lively Proud of the Record Made by the Harley-Davidsons at State Fair

W. E. Lively has returned from the state fair. He was especially interested in the records made by the Harley-Davidson motorcycles. In a ten mile event, using stripped stock machines, Red Parkhurst landed first, in 8 minutes 50 seconds. Alvin Stratton, also on a Harley-Davidson, was second.

In the three mile event Red Parkhurst again got first place and Alvin Stratton second, both riding Harley-Davidsons. Mr. Lively handles these machines in Brainerd.

## CONGRESS MAY ADJOURN SOON

Session Likely to End by the 1st of October.

### RIVER AND HARBOR BILL.

Fate of the Measure is Much in Doubt. Liquor Traffic Gets a Jolt—Senator Smith of Michigan is Accessible. Ancestry Determines Sympathy in War.

By ARTHUR W. DUNN.

Washington, Sept. 12.—[Special.]—The question of sympathy or partisanship in regard to the war in Europe depends largely upon the birth or ancestry of the person. Occasionally a

man of German ancestry is found who condemns the German militarism as responsible for the war, but expresses sympathy for the German people. For the most part, however, every German American citizen is strong for Germany in the war and hopes to see her win. That has been found true among the members of congress, even though they are somewhat careful not to express their opinions publicly, either officially in the Record or in newspaper interviews.

The Government Neutral. The government of the United States is absolutely neutral and is trying to steer clear of all complications. This was not the fact during the war between Japan and Russia. Not only the United States government, but a majority of the country, was permeated in favor of Japan and against Russia.

Much of this was due to the persecution of the Jews in Russia, and the Jewish influence made itself felt in this country. But our government was largely interested by John Hay, who was secretary of state, and was rather pro-English in his views, no doubt due

to his residence abroad. R. and H. Bill Still in Doubt.

There is still some doubt whether the river and harbor bill will pass. Senator William Alden Smith of Michigan declared in the senate that a quorum of senators would not stay to pass that measure. He is one of the men anxious to have it put through. Another man whose judgment is very good on congressional subjects, Congressman Kahn of California, says that congress will not be held in session to pass the river and harbor bill.

It was suggested to him that there was a great demand from many sections of the country for the bill in order to keep men employed, to which Kahn replied: "Most of those members vitally interested in the bill have been made safe by their primary nominations, and they will not be affected in the vote this fall by failure to pass the river and harbor bill. For that reason I expect to see congress adjourn on the 1st of October."

Tightening the Cords. If the Chilton amendment remains in the Clayton trust bill it will be an

other evidence showing how the cords are tightening on the liquor traffic. While the liquor question was not discussed when the Chilton amendment was offered, it was found that it would apply to the sale of liquors in a state which has adopted prohibition. West Virginia, Chilton's state, has recently put in force a very stringent prohibition law, and his amendment will still further prove restrictive and in conjunction with the Webb-Kenyon law will have a tendency to shut off liquor traffic in prohibition states.

The Lobby and Congress. There was an interesting reference to the lobby in regard to the river and harbor bill. It was Senator Gallinger, who said that "there was an insidious lobby at work in favor of the bill." Senator Smith of Michigan declared that he did not know of any lobby. Senator Burton of Ohio, who is opposing the bill, said that so far as he knew all the people who had seen him on the subject had done only what was their right. As Senator Gallinger insisted on criticizing the lobby, it finally brought this declaration from Senator Smith, "Has it come to the point where a senator is not willing to be seen by

the representatives of the chambers of commerce or organizations of business men in regard to legislation?" The Michigan senator said that he was willing to be seen by anybody on any public business and that it was time for a man to leave public life when he arrogated to himself all of the wisdom in the country.

Confession by Moore. J. Hampton Moore, complaining to the house that an injustice had been done him by the publication of his absence, one of the results of the Underwood resolution, declared that he had been as loyal in his attendance as any member. "I have been as vigorous as the average member," he asserted, "and I have sometimes been as irritating and annoying as any member." The house applauded that remark because it contained a good deal of truth.

Has Teeth in It. The verdict of people who come from West Virginia is to the effect that the prohibition law which has been passed by that state has teeth in it. In other words, it is a prohibition law which prohibits.

## SENATE OPPOSED TO LAND LEASES

Conservation Bills Make No Progress in Upper House.

AGAINST PUBLIC WELFARE.

Time Honored Senate Rule Broken Down by Red Cross—Time Clock Suggested to Keep Congressmen on Duty—Senator Burton of Ohio Objects to "Crushing."

By ARTHUR W. DUNN.

Washington, Sept. 14.—[Special.]—Although the house of representatives spent considerable time on conservation bills there is not much possibility of them passing the senate, particularly the one which relates to leasing government lands for any purpose. The bill for leasing coal lands in Alaska came up in the senate not long ago, and the opposition which was raised by a number of western senators showed that the leasing system plan will have a hard time. Senators favoring the bill pointed out that all the lands in Alaska were withdrawn from settlement and entry and that no coal could be obtained, although the government provided for building a railroad there and the coal would be needed.

By Executive Order.

"The interior department can open these lands in ten minutes," declared Senator Shafroth of Colorado, who is vigorously opposing the leasing system. "I regard the question of leasing a leasing system upon this government as fraught with consequences very momentous to the welfare of the country. By executive order permission to make entries upon coal lands can be made, and the policy of withdrawing these lands and other lands from entry was inaugurated six or seven years ago for the purpose of forcing a leasing system upon the people of the west, but I will never give my

consent to the carrying out of such a plan."

There are a number of other senators who are equally insistent in their opposition to the leasing system.

Breaking a Rule.

The Red Cross has proved itself a mighty powerful organization. It has broken down a rule of the senate in regard to the posting of notices in the nature of soliciting funds. Never before has anything of the kind happened. But then nearly everybody is interested in the charitable work which the Red Cross is doing for the sufferers in the European war.

Suggests a Time Clock.

There is so much talk about the docking of members and how arrangements shall be made in regard to securing evidence as to their presence that all sorts of ideas are presented. Congressman Garrett of Tennessee in a serious mood was asking how the sergeant-at-arms could determine who were entitled to their salaries.

"Let him establish a clock so that we can ring it when we come in and ring it when we go out," said Madden of Illinois. "That is the way to keep track of members if you are going to do it on the square. If they are working by the hour or the minute then it ought to be done at once."

Several years ago the treasury department established a time clock system to regulate the goings and comings of employees, and congress by legislation stopped it forevermore in all departments of the government.

Burton Protested.

Senator Burton has been making a speech on the river and harbor bill extending over many days in the aggregate. At one period Senator Gallagher suggested that the bill be sent back to committee, and Senator Smith remarked that the committee had already worked diligently on the bill.

"Yes," said the New Hampshire senator, "but they had not the enlightenment then that they have had since."

"We had all the light that has been thrown on the bill through the discussion," replied Smith.

"I object to that," interjected Senator Burton. "I do not want to have my remarks for all this time so remorselessly crushed by a single sentence."

Don't.

When you feel in a scrappy mood don't try to take a fall out of an airship.—Chicago News.

## FREE 2 YEARS, SURRENDERS

St. Cloud Prisoner, Who Broke Parole on 1912, Gives up at Buffalo, New York

Under date of St. Cloud, Sept. 12, the St. Paul Pioneer Press mentions a Crow Wing county man who surrendered to the authorities after having broken his parole.

Declaring that he was tired of avoiding the police, who have been looking for him since 1912, Henry M. Hartman, 29 years old, a paroled prisoner from the St. Cloud reformatory, has given himself up to the Buffalo, N. Y., authorities, according to a message received here.

Hartman was received at the reformatory December 19, 1908, from Crow Wing county, where he had been sentenced on the charge of burglary. He was paroled August 29, 1912, and broke parole on November 19 of the same year.

## DULUTH WHEELAGE TAX

Aggregates \$16,707.65 This Year—The Dog Tax at \$1.50 Per Is \$2,887

Brainerd this year puts into operation its new wheelage tax. This tax has for years been a source of considerable revenue to the city of Duluth and figures are given herewith of the operation of that tax and the dog tax, at \$1.50 per license, in Duluth.

Duluth's revenue from wheelage taxes and dog licenses is \$2,435.59 greater thus far this year than last year, according to a statement which has been prepared by Lindsay W. Pike, key of the treasurer's office.

Last year the wheelage tax receipts aggregated \$14,847.06 and the number of tags issued was 2,127, as compared with \$16,707.65 and 2,290 tags to date this year. The additional 163 tags brought an increase of \$1,860.59 in revenue.

Although 316 fewer dog licenses have been issued this season than last, Duluth dog owners have paid \$575 more in taxes. This is due to the fact that last spring the dog ordinance was amended to increase the cost of dog licenses from \$1.25 to \$1.50. Up to noon today the treasurer's office had issued 1,683 tags as compared with 1,999 in 1913. The total receipts this year have been \$2,887 as compared to \$2,312 last year. The decrease in the number of Duluth dogs is believed to have been due to the activity of the dog catchers sent out by the police department. Many stray canines have been killed and many others have been taken out of the city.

The Duluth police department has also been checking up all vehicles in the city to see that they paid their wheelage taxes. Several warnings were issued and a number of arrests made for violations of the ordinance. For looking after the wheelage tax

and dog tax collections the police department fund was allowed an additional \$1,000 from the general fund, into which these collections are paid.

## FALLS HEIR TO \$10,000

Nels Lundstrom, a Kennedy Mine Employee, So Informed By Attorney Swagard, of Slayton, has been in the city endeavoring to locate an heir to an estate in Slayton.

After some search he found the heir, Nels Lundstrom, working in the Kennedy mine at Cuyuna. His father and mother died a short time ago and he falls heir to about \$10,000.

## MUSIC AND DRAMA

At the Columbia

Rain greatly interfered with crowds everywhere last night, but as the Columbia has the same program for tonight, everyone will have an opportunity to see the pictures.

"The Heart's Rebellion" was an exceptionally strong play.

John Bunney was a-w-f-u-l-l-y funny in his own original comedy, "Polishing Up." The Western drama was above the average. Tomorrow and Wednesday are "Alice Joyce" days and if press notices and public opinion from the east are reported correctly, "The Weakling" will be a dandy. The most realistic thunder storm ever staged will be one of the many exciting scenes. This week the great railroad picture "The Operator at Black Rock," will be shown. Watch for it!

## Opening of New Grand Tonight

The elaborate preparations for this evening's opening are all completed and the managers are satisfied that all those who will witness tonight's performance will be highly delighted with every number.

The wonderful serial, "The Trey O' Hearts," is bound to please, and you will be as intensely interested as you were in "Lucille Love." Too much can not be said for the other film attractions coming. "The Oublette" with the adorable Mary Pickford as the star, this charming actress needs no introduction and her admirers will be happy to learn

## SENATE OPPOSED TO LAND LEASES

Conservation Bills Make No Progress In Upper House.

AGAINST PUBLIC WELFARE.

Time Honored Senate Rule Broken Down by Red Cross—Time Clock Suggested to Keep Congressmen on Duty—Senator Burton of Ohio Objects to "Crushing."

By ARTHUR W. DUNN.

Washington, Sept. 14.—[Special.]—Although the house of representatives spent considerable time on conservation bills there is not much possibility of their passing the senate, particularly the one which relates to leasing government lands for any purpose. The bill for leasing coal lands in Alaska came up in the senate not long ago, and the opposition which was raised by a number of western senators showed that the leasing system plan will have a hard time.

Senators favoring the bill pointed out that all the lands in Alaska were withdrawn from settlement and entry and that no coal could be obtained, although the government provided for building a railroad there and the coal would be needed.

By Executive Order.

"The interior department can open these lands in ten minutes," declared Senator Shafroth of Colorado, who is vigorously opposing the leasing system. "I regard the question of leasing a leasing system upon this government as fraught with consequences very momentous to the welfare of the country. By executive order permission to make entries upon coal lands can be made, and the policy of withdrawing these lands and other lands from entry was inaugurated six or seven years ago for the purpose of forcing a leasing system upon the people of the west, but I will never give my

consent to the carrying out of such a plan."

There are a number of other senators who are equally insistent in their opposition to the leasing system.

Breaking a Rule.

The Red Cross has proved itself a mighty powerful organization. It has broken down a rule of the senate in regard to the posting of notices in the nature of soliciting funds. Never before has anything of the kind happened. But then nearly everybody is interested in the charitable work which the Red Cross is doing for the sufferers in the European war.

Suggests a Time Clock.

There is so much talk about the docking of members and how arrangements shall be made in regard to securing evidence as to their presence that all sorts of ideas are presented. Congressman Garrett of Tennessee in a serious mood was asking how the sergeant-at-arms could determine who were entitled to their salaries.

"Let him establish a clock so that we can ring it when we come in and ring it when we go out," said Madden of Illinois. "That is the way to keep track of members if you are going to do it on the square. If they are working by the hour or the minute then it ought to be done at once."

Several years ago the treasury department established a time clock system to regulate the goings and comings of employees, and congress by legislation stopped it forevermore in all departments of the government.

Burton Protested.

Senator Burton has been making a speech on the river and harbor bill extending over many days in the aggregate. At one period Senator Gallagher suggested that the bill be sent back to committee, and Senator Smith remarked that the committee had already worked diligently on the bill.

"Yes," said the New Hampshire senator, "but they had not the enlightenment then that they have had since."

"We had all the light that has been thrown on the bill through the discussion," replied Smith.

"I object to that," interjected Senator Burton. "I do not want to have my remarks for all this time so remorselessly crushed by a single sentence."

Don't.

When you feel in a scrappy mood don't try to take a fall out of an airship.—Chicago News.

## FREE 2 YEARS, SURRENDERS

St. Cloud Prisoner, Who Broke Parole on 1912, Gives up at Buffalo, New York

Under date of St. Cloud, Sept. 12, the St. Paul Pioneer Press mentions a Crow Wing county man who surrendered to the authorities after having broken his parole.

Declaring that he was tired of avoiding the police, who have been looking for him since 1912, Henry M. Hartman, 29 years old, a paroled prisoner from the St. Cloud reformatory, has given himself up to the Buffalo, N. Y., authorities, according to a message received here.

Hartman was received at the reformatory December 19, 1908, from Crow Wing county, where he had been sentenced on the charge of burglary. He was paroled August 29, 1912, and broke parole on November 19 of the same year.

## DULUTH WHEELAGE TAX

Aggregates \$16,707.65 This Year—The Dog Tax, at \$1.50 Per is \$2,887

Brainerd this year puts into operation its new wheelage tax. This tax has for years been a source of considerable revenue to the city of Duluth and figures are given herewith of the operation of that tax and the dog tax, at \$1.50 per license, in Duluth.

Duluth's revenue from wheelage taxes and dog licenses is \$2,435.59 greater this far this year than last year, according to a statement which has been prepared by Lindsay W. Pilkey of the treasurer's office.

Last year the wheelage tax receipts aggregated \$14,847.06 and the number of tags issued was 2,127, as compared with \$16,707.65 and 2,290 tags to date this year. The additional 183 tags brought an increase of \$1,860.59 in revenue.

Although 316 fewer dog licenses have been issued this season than last, Duluth dog owners have paid \$575 more in taxes. This is due to the fact that last spring the dog ordinance was amended to increase the cost of dog licenses from \$1.25 to \$1.50. Up to noon today the treasurer's office had issued 1,683 tags as compared with 1,999 in 1913. The total receipts this year have been \$2,887 as compared to \$2,312 last year. The decrease in the number of Duluth dogs is believed to have been due the activity of the dog catchers sent out by the police department. Many stray canines have been killed and many others have been taken out of the city.

The Duluth police department has also been checking up all vehicles in the city to see that they paid their wheelage taxes. Several warnings were issued and a number of arrests made for violations of the ordinance. For looking after the wheelage tax

and dog tax collections the police department fund was allowed an additional \$1,000 from the general fund, into which these collections are paid.

## FALLS HEIR TO \$10,000

Nels Lundstrom, a Kennedy Mine Employee, So Informed By Attorney from Slayton

Attorney Swangard, of Slayton, has been in the city endeavoring to locate an heir to an estate in Slayton. After some search he found the heir, Nels Lundstrom, working in the Kennedy mine at Cuyuna. His father and mother died a short time ago and he falls heir to about \$10,000.

## MUSIC AND DRAMA

At the Columbia

Rain greatly interfered with crowds everywhere last night, but as the Columbia has the same program for tonight, everyone will have an opportunity to see the pictures.

"The Heart's Rebellion" was an exceptionally strong play.

John Bunney was a w-f-u-l-l-y funny in his own original comedy, "Polishing Up." The Western drama was above the average. Tomorrow and Wednesday are "Alice Joyce" days and if press notices and public opinion from the east are reported correctly, "The Weakling" will be a dandy. The most realistic thunder storm ever staged will be one of the many exciting scenes. This week the great railroad picture "The Operator at Black Rock" will be shown. Watch for it!

Opening of New Grand Tonight

The elaborate preparations for this evening's opening are all completed and the managers are satisfied that all those who will witness tonight's performance will be highly delighted with every number.

The wonderful serial, "The Treason of Hearts," is bound to please, and you will be as intensely interested as you were in "Lucille Love." Too much can not be said for the other film attractions coming. "The Oubliette" with the adorable Mary Pickford as the star, this charming actress needs no introduction and her admirers will be happy to learn
